Summary

I have knowledge in CSS, HTML, and Python, also I learned some Javascript within the last year and this year. I've entered many competitions and worked with some programs. I was able to earn some badges from the work I've done. Recently won first place for a app competition with my team, created wireframe, mock-up. One of my skills is that I'm good at drawing and crafting, these skills can help me able to create a prototype for my ideas. I have experience in the art field and learned about design, which helps me able to give ideas for the designs in my work.

Education

Thomas A Edison Career And Technical High School

High School, Web Page, Digital/Multimedia and Information Resources Design
2021 - 2024
My CTE class is Web/App Development, gave me knowledge of HTML, CSS, Python, and Javascript, within the class, we focused on creating websites and then advanced into apps. Throughout, the years I entered competitions related to creating games and apps.
